

# **Bridgeon Solutions Employee Handbook & Company Policies**

## **Detailed Edition for RAG Testing and Retrieval Validation**

### **Company Overview**

Bridgeon Solutions is a technology-driven organization focused on software development, cloud solutions, artificial intelligence, data engineering, and enterprise digital transformation. The company is committed to fostering innovation, continuous learning, customer success, and operational excellence. Employees are expected to uphold professional standards, collaborate effectively across teams, and contribute positively to the company's mission of delivering high-quality technology solutions. Bridgeon values integrity, accountability, transparency, and customer-centric thinking in every aspect of its operations.

### **Working Hours and Attendance**

The standard working schedule is Monday through Friday from 9:00 AM to 6:00 PM. Employees may choose a flexible start time between 8:00 AM and 10:00 AM, provided they complete their expected work hours and remain available during core collaboration hours. Regular attendance is considered an essential responsibility. Employees who anticipate being late or absent must notify their manager before the start of the workday. Repeated attendance issues may result in coaching, performance discussions, or disciplinary action.

### **Leave Policy**

Employees are eligible for annual leave, casual leave, sick leave, and special leave categories. Annual leave is intended to support work-life balance and should be planned in advance whenever possible. Sick leave may be used when employees are unable to perform their duties due to illness. Extended medical leave may require supporting documentation. Employees are encouraged to use their leave responsibly and coordinate with their managers to ensure smooth project execution. Leave balances are tracked through the company HR system and are subject to company policy updates.

## **Remote Work Policy**

Bridgeon supports flexible work arrangements where business requirements permit. Employees may work remotely for up to two days per week with prior approval from their manager. Remote employees are expected to maintain productivity, attend scheduled meetings, and remain accessible through approved communication channels. Accessing company systems from outside the office requires the use of approved security controls including VPN connections and multi-factor authentication.

## **Information Security Policy**

Information security is a critical responsibility shared by all employees. Company information, customer data, source code, credentials, and intellectual property must be protected against unauthorized access, disclosure, alteration, or destruction. Employees must use strong passwords, enable multi-factor authentication, and avoid sharing credentials. Confidential information should only be accessed on a need-to-know basis. Any suspected security incident must be reported immediately to the information security team.

## **Travel and Expense Policy**

Employees traveling for approved business purposes may submit reimbursement claims for eligible expenses including transportation, lodging, meals, and other business-related costs. All expenses must be supported by valid receipts and submitted within the designated reporting period. Expense claims that exceed approved limits require additional management approval. Employees are expected to exercise reasonable judgment and cost-conscious decision-making while representing the company.

## **Performance Management**

Performance reviews are conducted twice annually and are designed to provide constructive feedback, recognize achievements, and identify development opportunities. Employees are evaluated based on business impact, technical skills, collaboration, communication, leadership potential, and adherence to company values. Managers are responsible for conducting fair and objective evaluations supported by measurable outcomes and documented performance evidence.

## **Code of Conduct**

Employees are expected to maintain the highest standards of professional conduct. Discrimination, harassment, retaliation, intimidation, and unethical behavior are strictly prohibited. Employees must treat colleagues, customers, vendors, and partners with respect and professionalism. Violations of the code of conduct may result in disciplinary action, including termination of employment.

## **Learning and Development**

Bridgeon encourages continuous learning and professional growth. Employees may participate in internal training programs, workshops, technical certifications, and industry conferences. Approved certification expenses may be reimbursed according to company guidelines. Employees are encouraged to actively pursue skill development that aligns with organizational goals and future career growth.

## **Termination and Exit Process**

Employees who resign are expected to provide the required notice period unless otherwise approved. During the notice period, employees are expected to complete knowledge transfer activities, return company assets, and assist in ensuring a smooth transition of responsibilities. Exit interviews may be conducted to gather feedback and identify opportunities for organizational improvement.
